

Willamette River Alcove temperature and DO monitoring July 23, 2020 – September 7, 2020

Rob Coulombe and Blake Hatteberg, CSS.

Church Alcove – measurement locations

Logger locations:

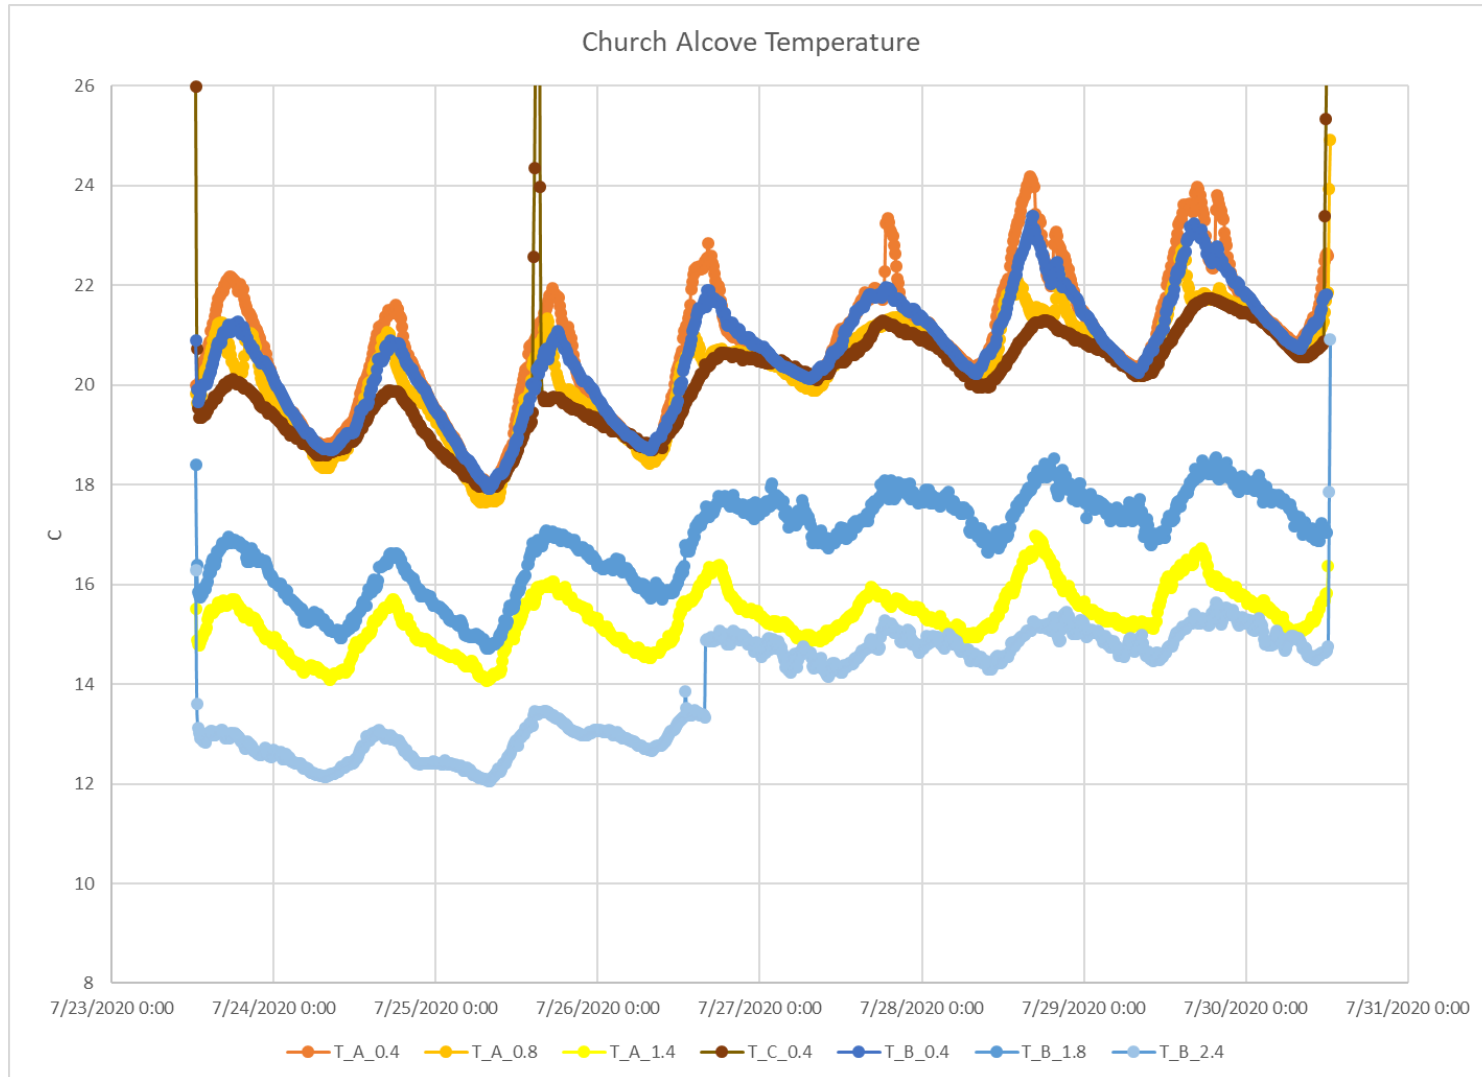

- A – upper (3 depths)
- B – lower (3 depths)
- C – River logger

Handheld sensor measurement locations 1-22 at up to 3 depths.

Icon colors indicate following:

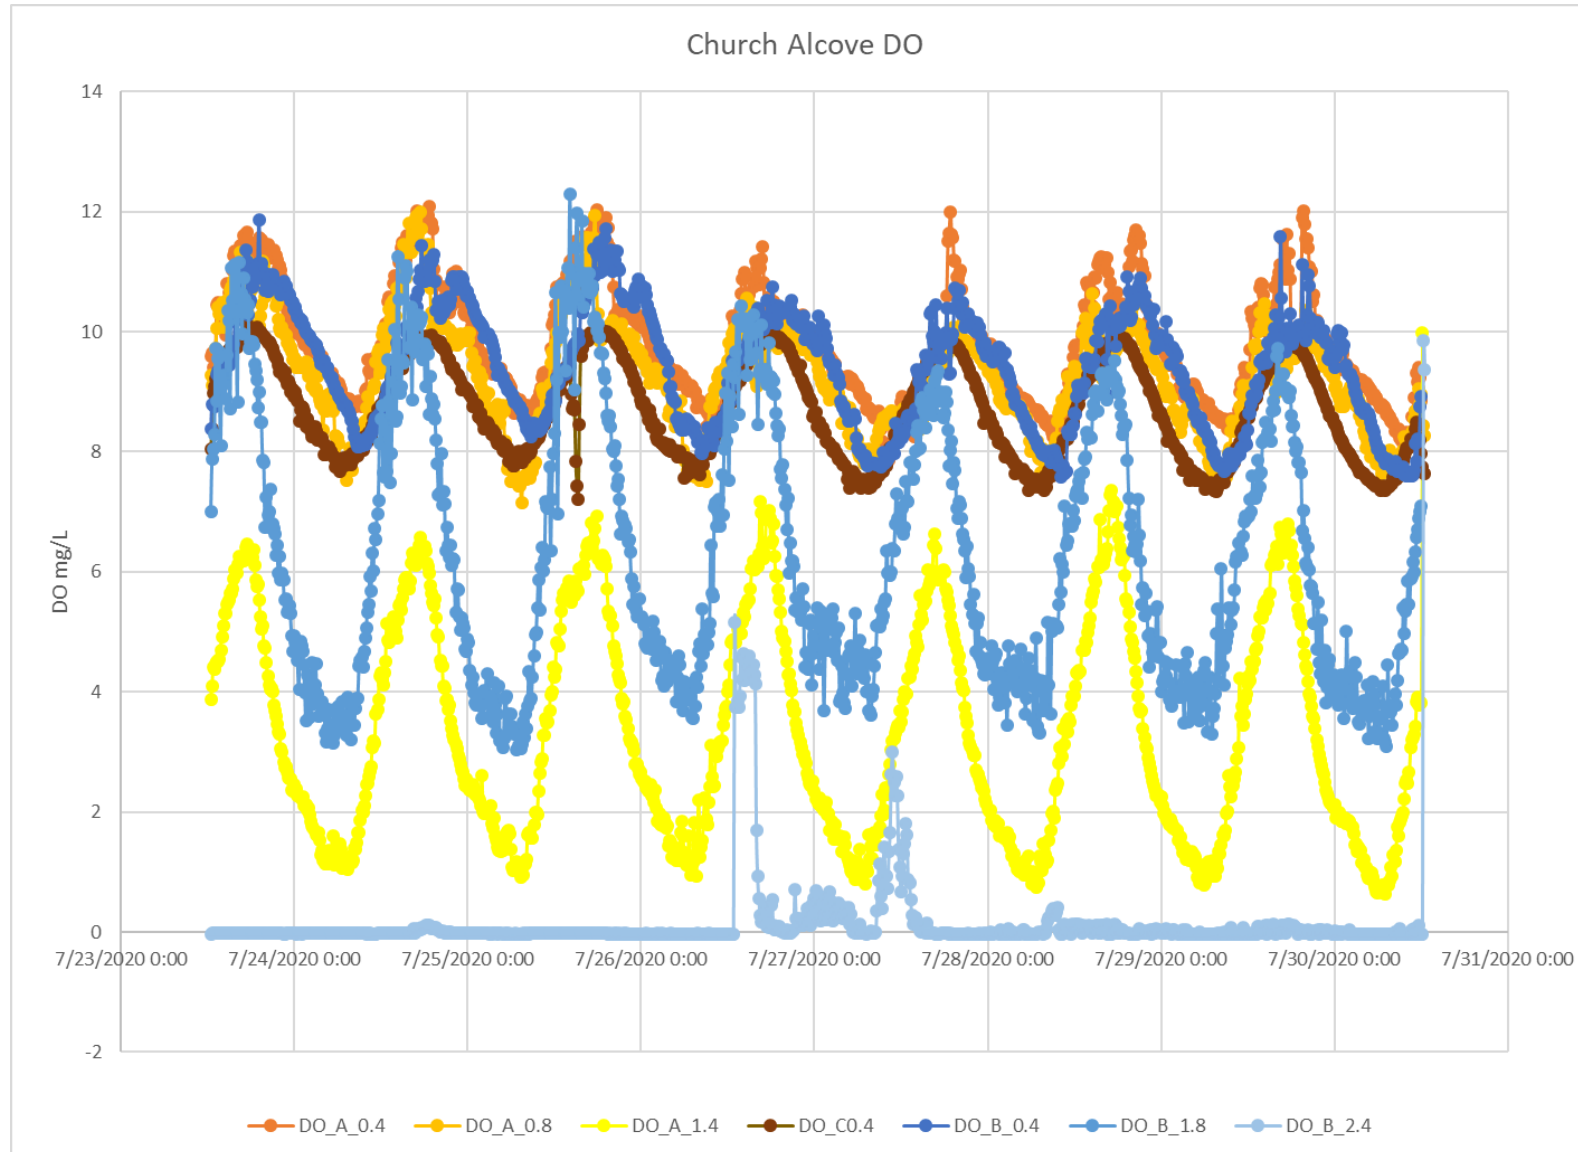

- Blue: Temp <16 & DO >5 mg/l
- Yellow: Temp <16 & DO <=5
- Orange: Temp >=16 & DO >5
- Red: Temp >=16 & DO <=5

Church alcove– Temperature: upper alcove (orange/yellow), lower alcove (blue), river (red)

It appears that the river sensor was picked up and moved on 7/25, it was in a somewhat different location when retrieved

Church alcove– Oxygen: upper alcove (orange/yellow), lower alcove (blue), river (red)

Cottonwood alcove– measurement locations

Logger locations:

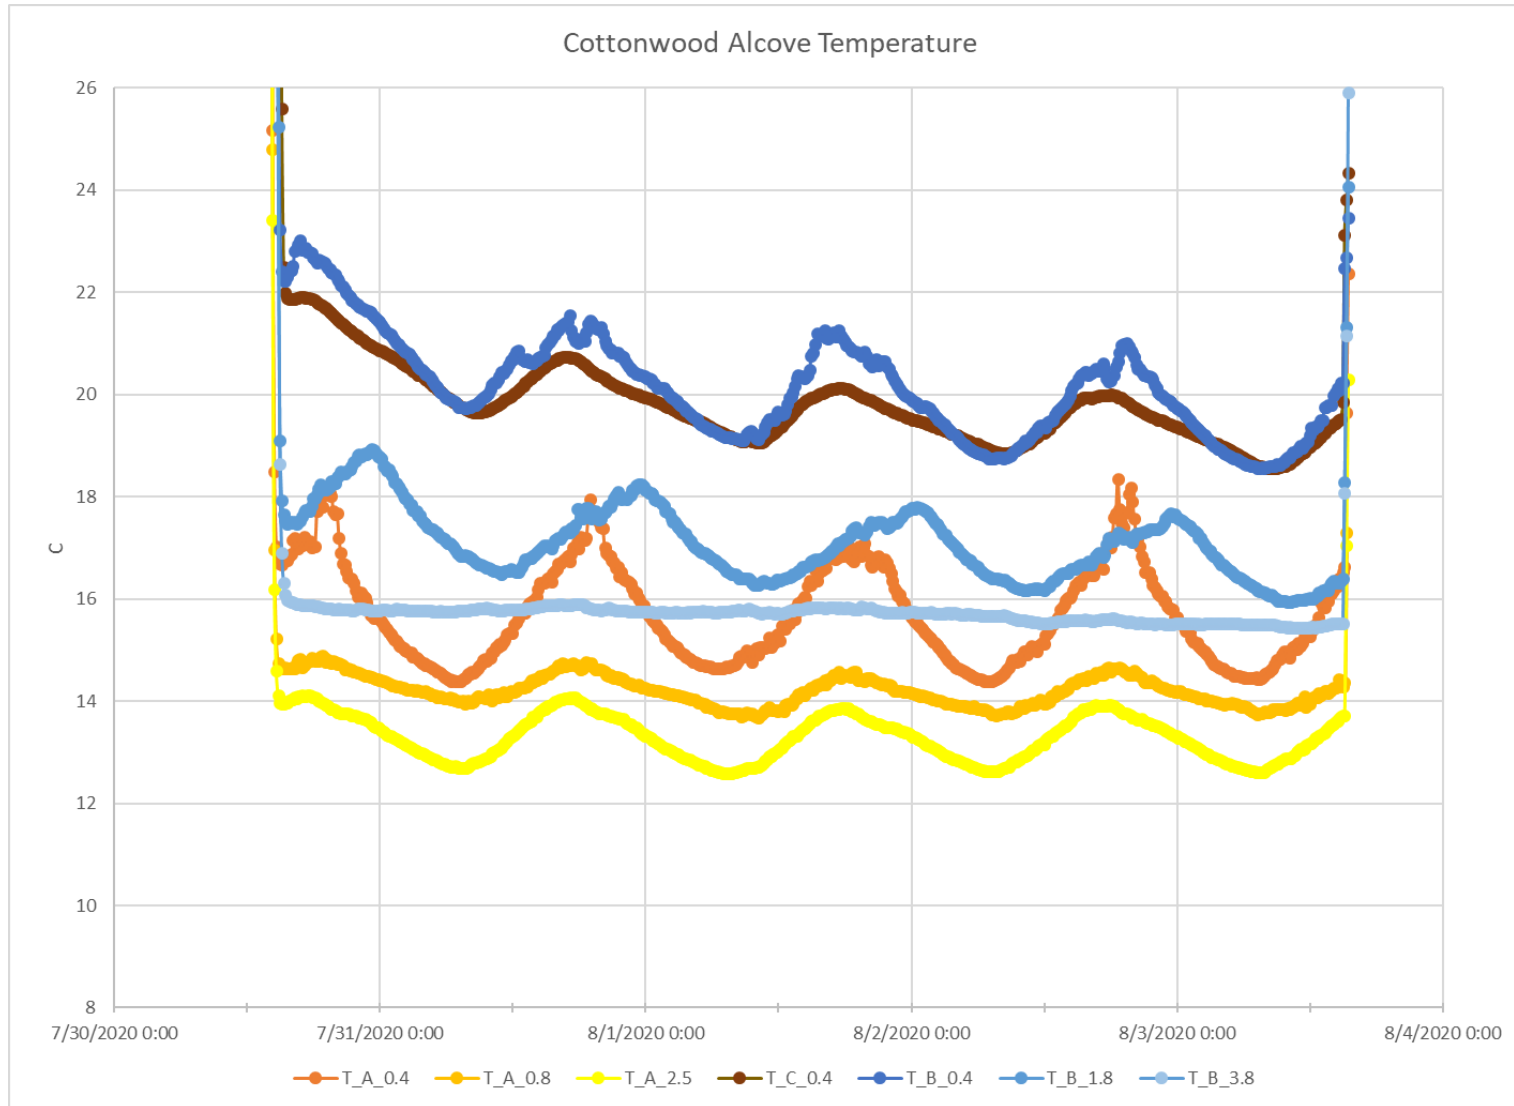

- A – upper (3 depths)
- B – lower (3 depths)
- C – River logger

Handheld sensor measurement locations 1-13 at up to 3 depths.

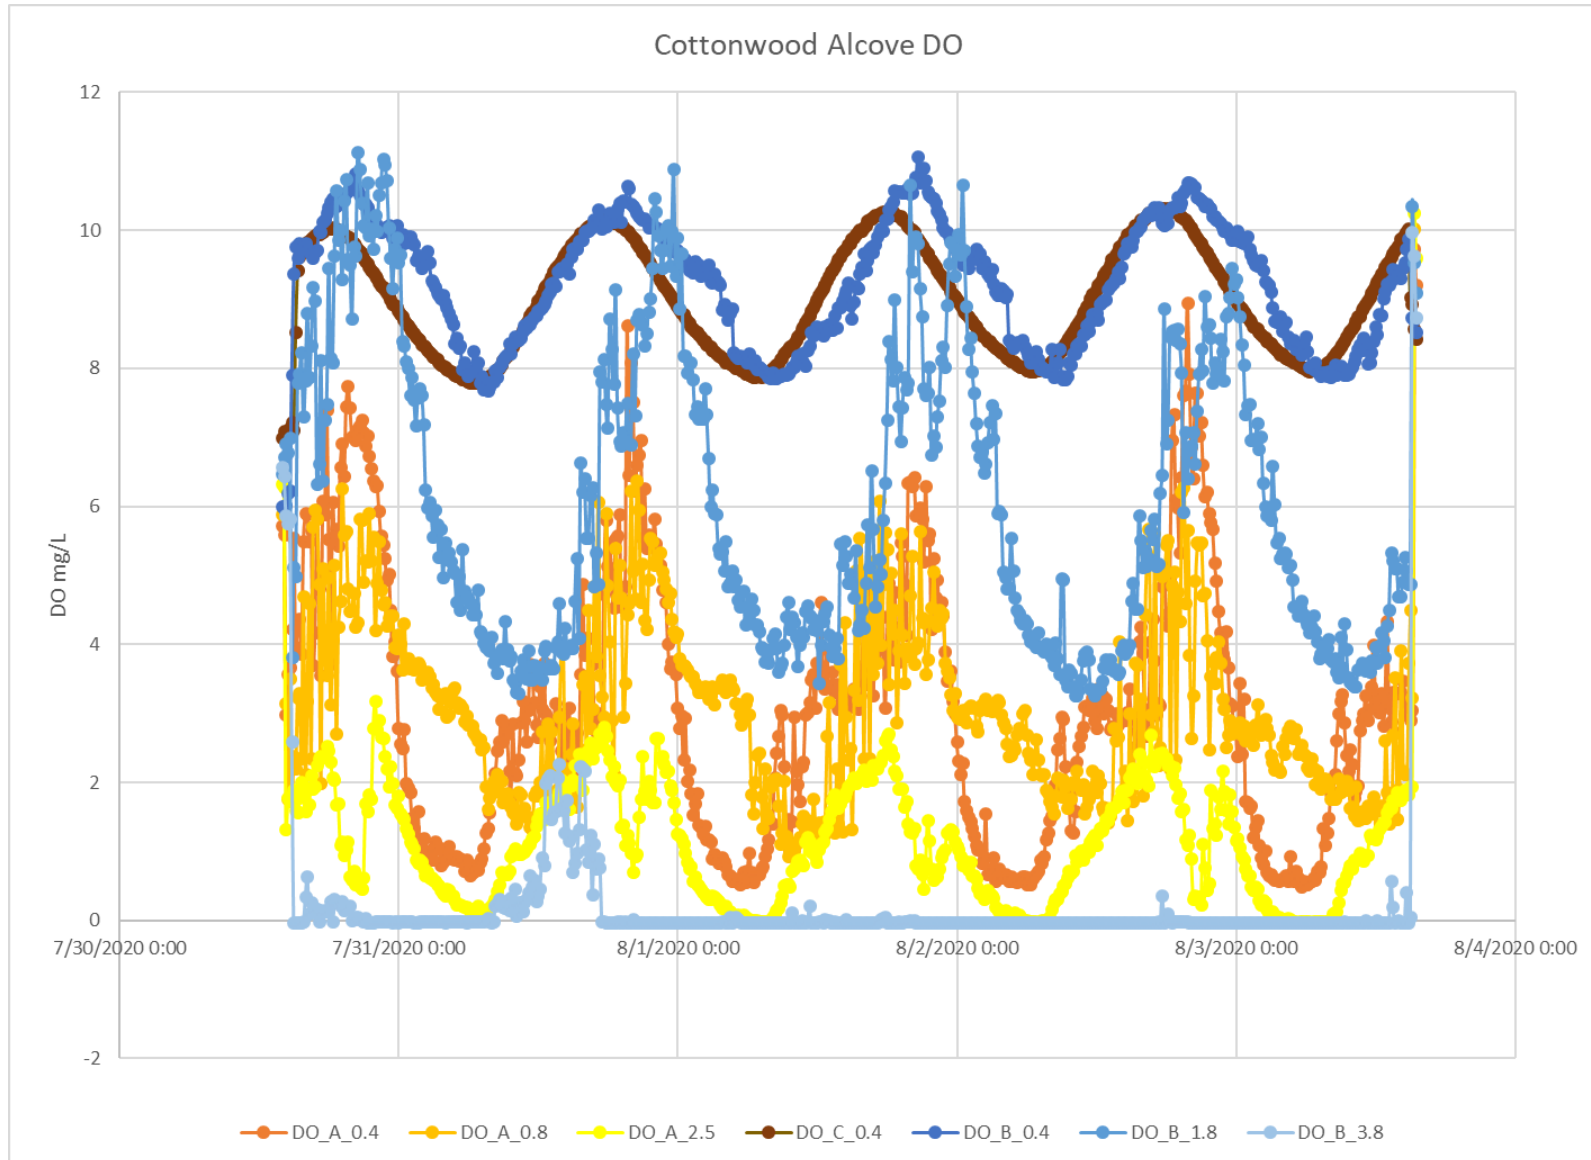

Icon colors indicate following:

- Blue: Temp <16 & DO >5 mg/l
- Yellow: Temp <16 & DO <=5
- Orange: Temp >=16 & DO >5
- Red: Temp >=16 & DO <=5

Cottonwood alcove– Temperature: upper alcove (orange/yellow), lower alcove (blue), river (red)

Cottonwood alcove– Oxygen: upper alcove (orange/yellow), lower alcove (blue), river (red)

Telemetry Slough– measurement locations

Logger locations:

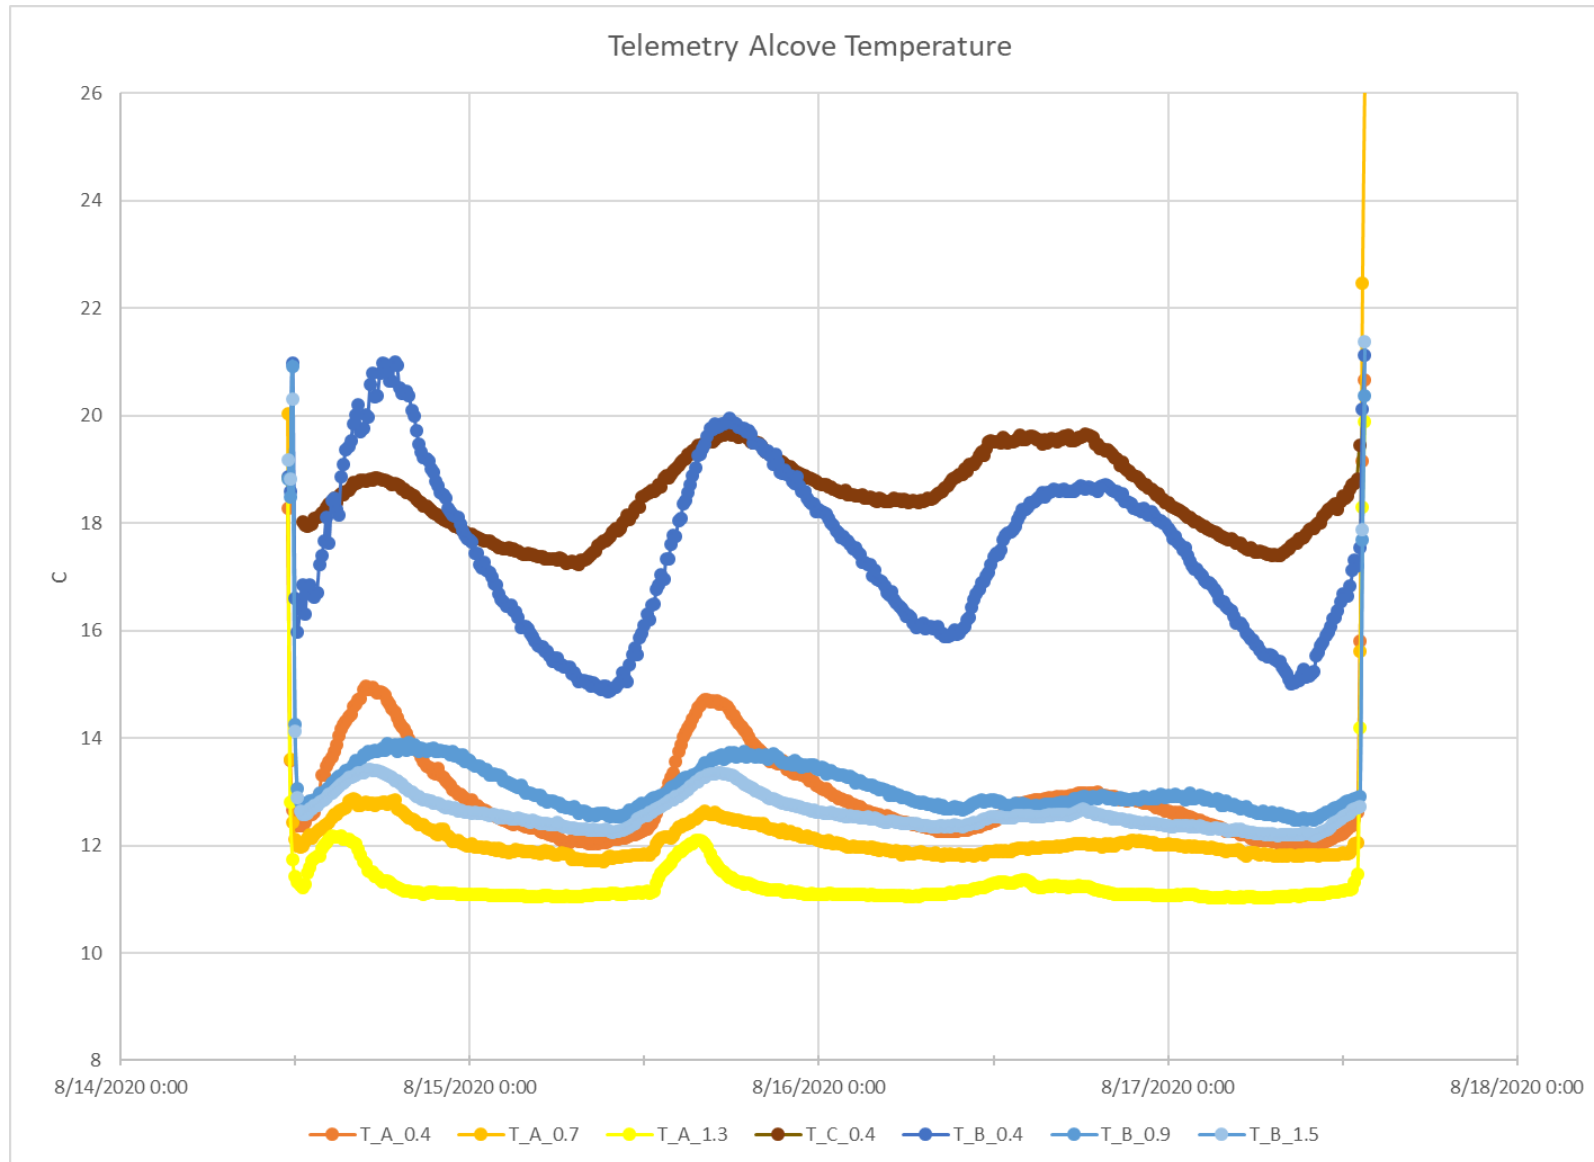

- A – upper (3 depths)
- B – lower (3 depths)
- C – River logger

Handheld sensor measurement locations 1-21 at up to 3 depths.

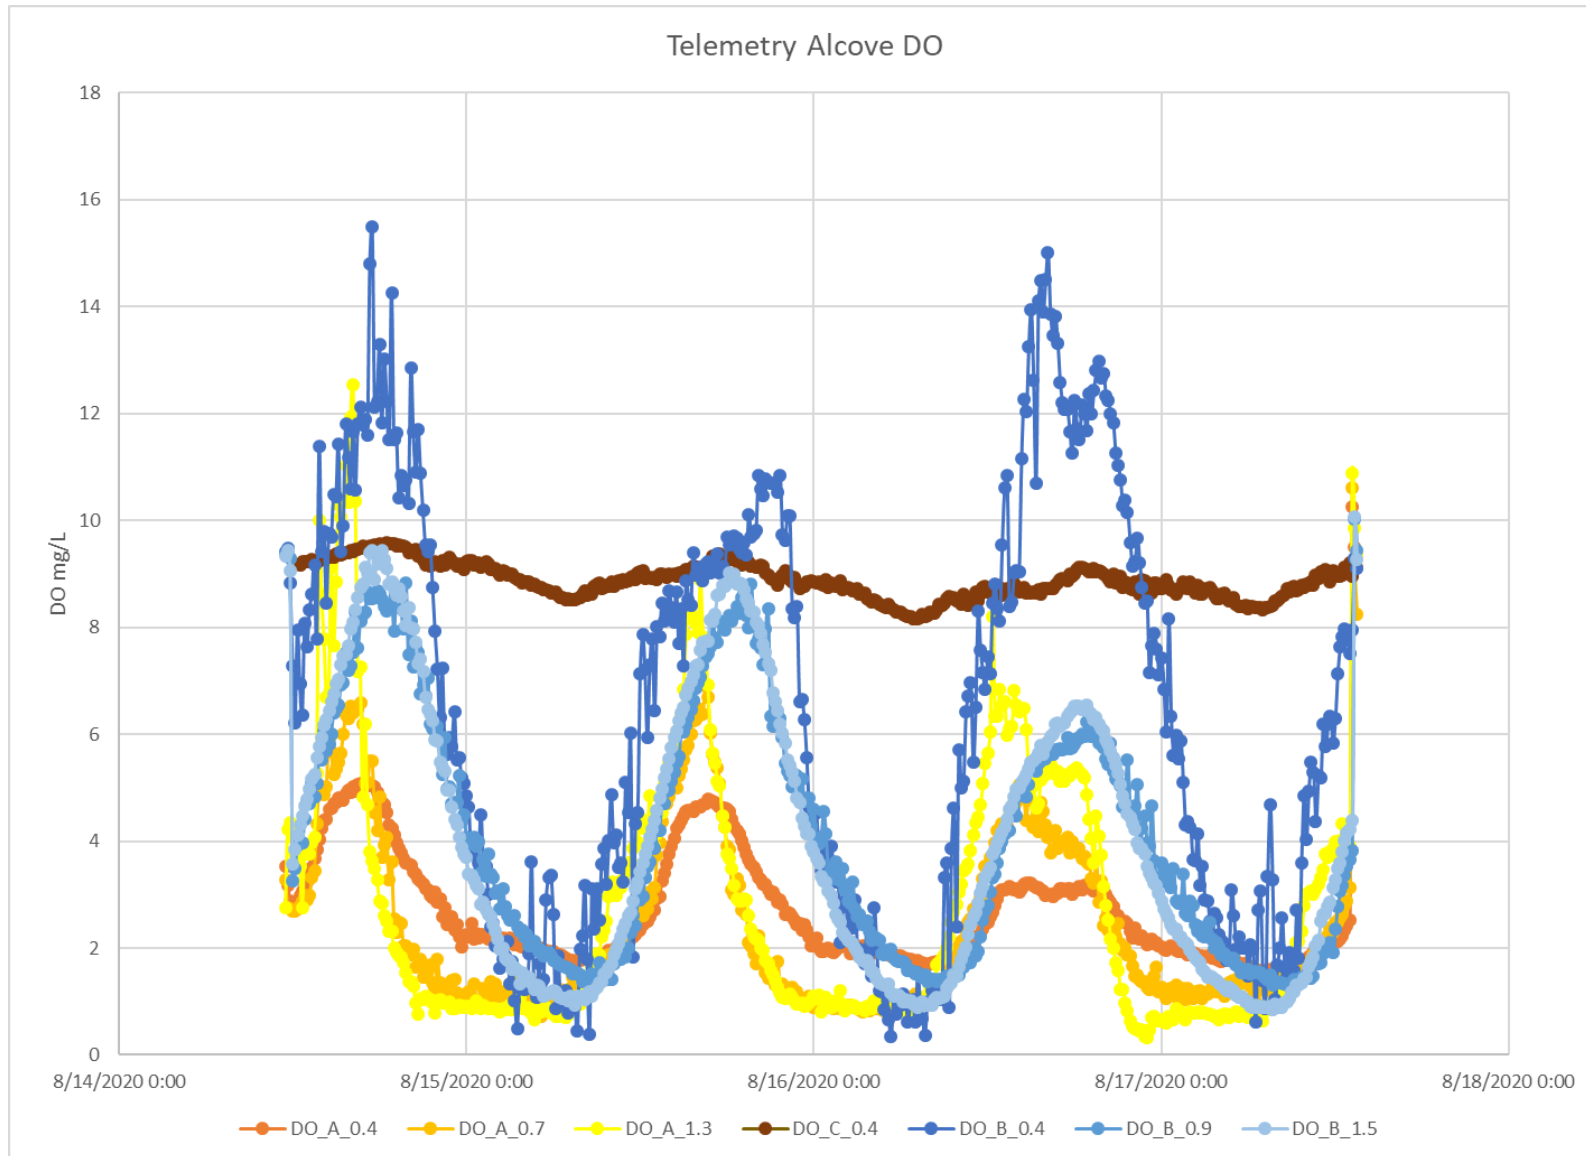

Icon colors indicate following:

- Blue: Temp <16 & DO >5 mg/l
- Yellow: Temp <16 & DO ≤ 5
- Orange: Temp ≥ 16 & DO >5
- Red: Temp ≥ 16 & DO ≤ 5

Telemetry Slough– Temperature: upper alcove (orange/yellow), lower alcove (blue), river (red)

Telemetry Slough– Oxygen: upper alcove (orange/yellow), lower alcove (blue), river (red)

Bear Island Alcove— measurement locations

Logger locations:

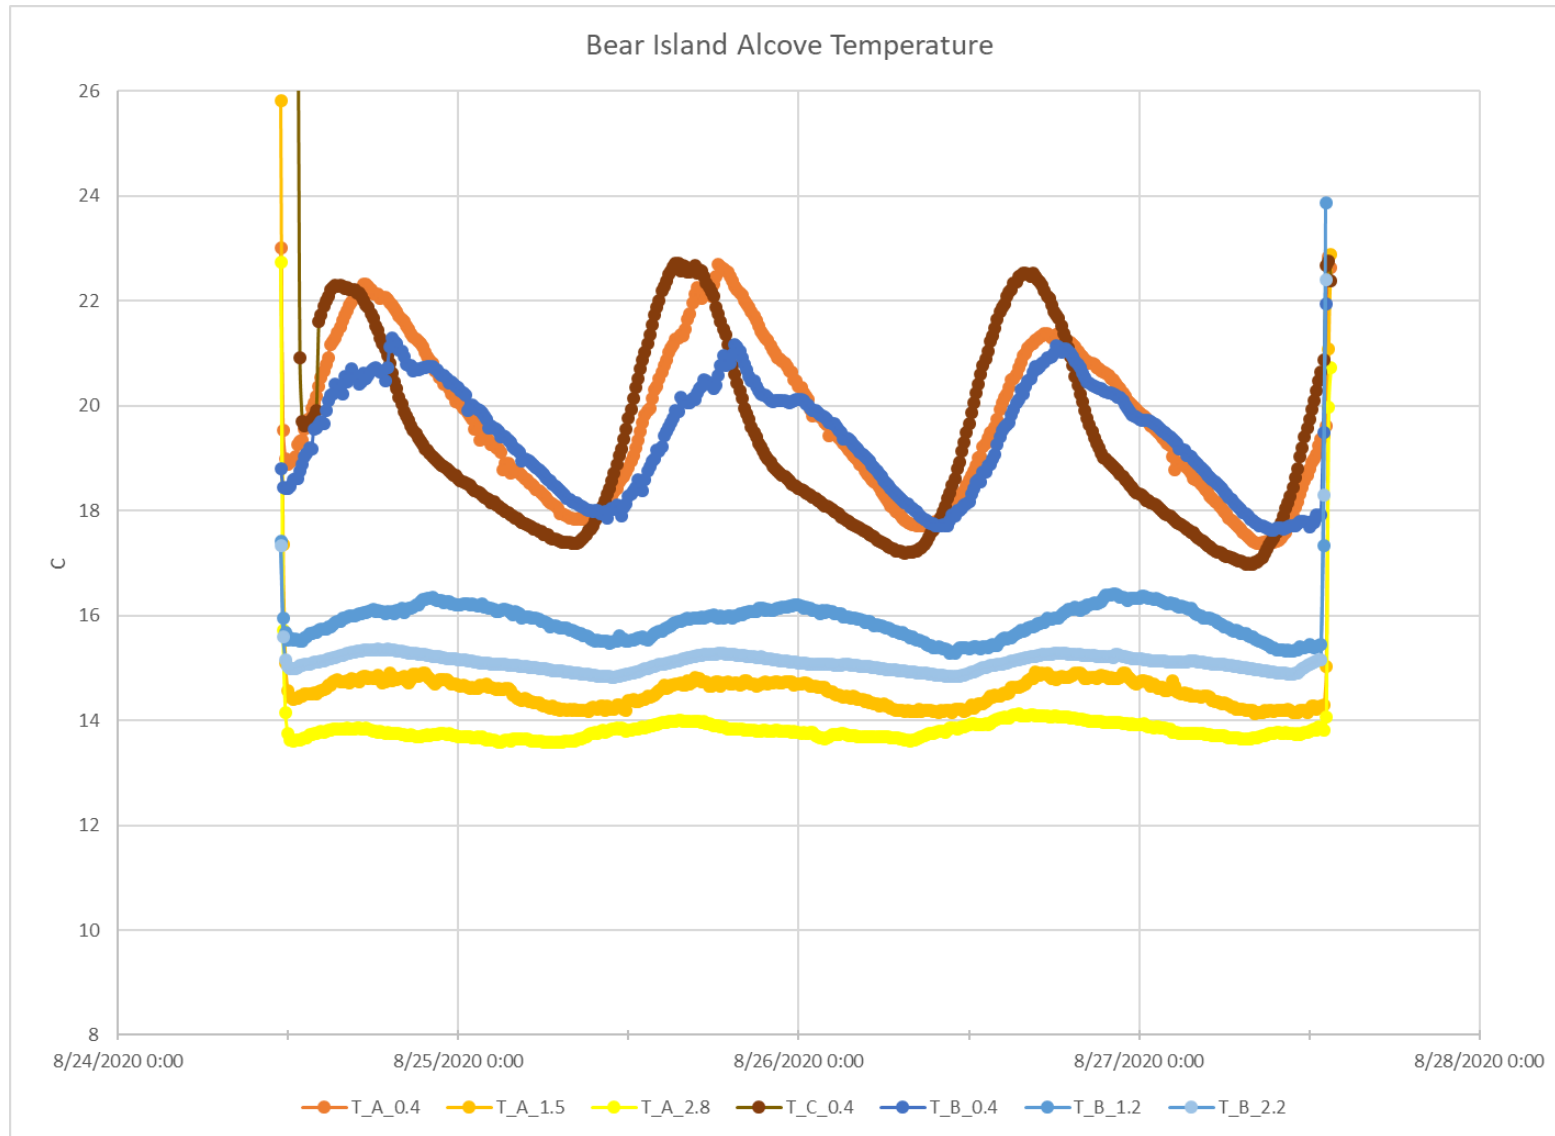

- A – upper (3 depths)
- B – lower (3 depths)
- C – River logger

Handheld sensor measurement locations 1-20 at up to 3 depths.

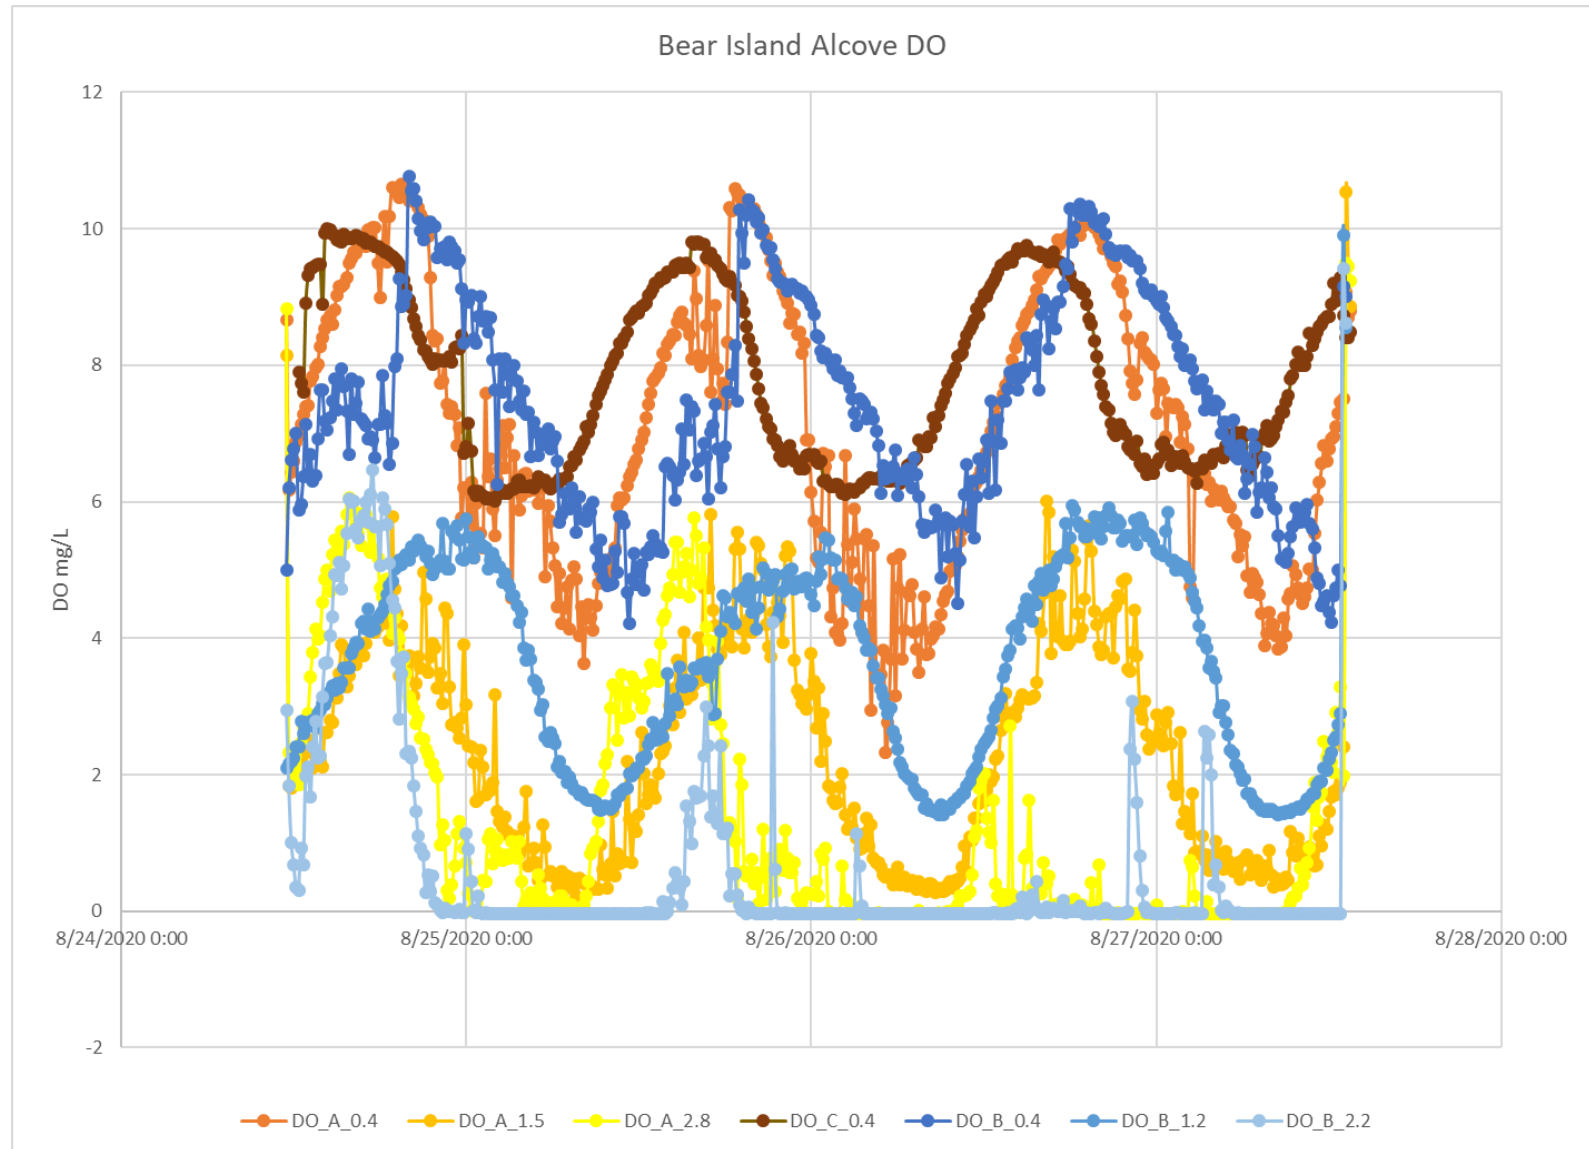

Icon colors indicate following:

- Blue: Temp <16 & DO >5 mg/l
- Yellow: Temp <16 & DO ≤ 5
- Orange: Temp ≥ 16 & DO >5
- Red: Temp ≥ 16 & DO ≤ 5

Bear Island Alcove— Temperature: upper alcove (orange/yellow), lower alcove (blue), river (red)

Bear Island Alcove— Oxygen: upper alcove (orange/yellow), lower alcove (blue), river (red)

Blue Ruin alcove— measurement locations

Logger locations:

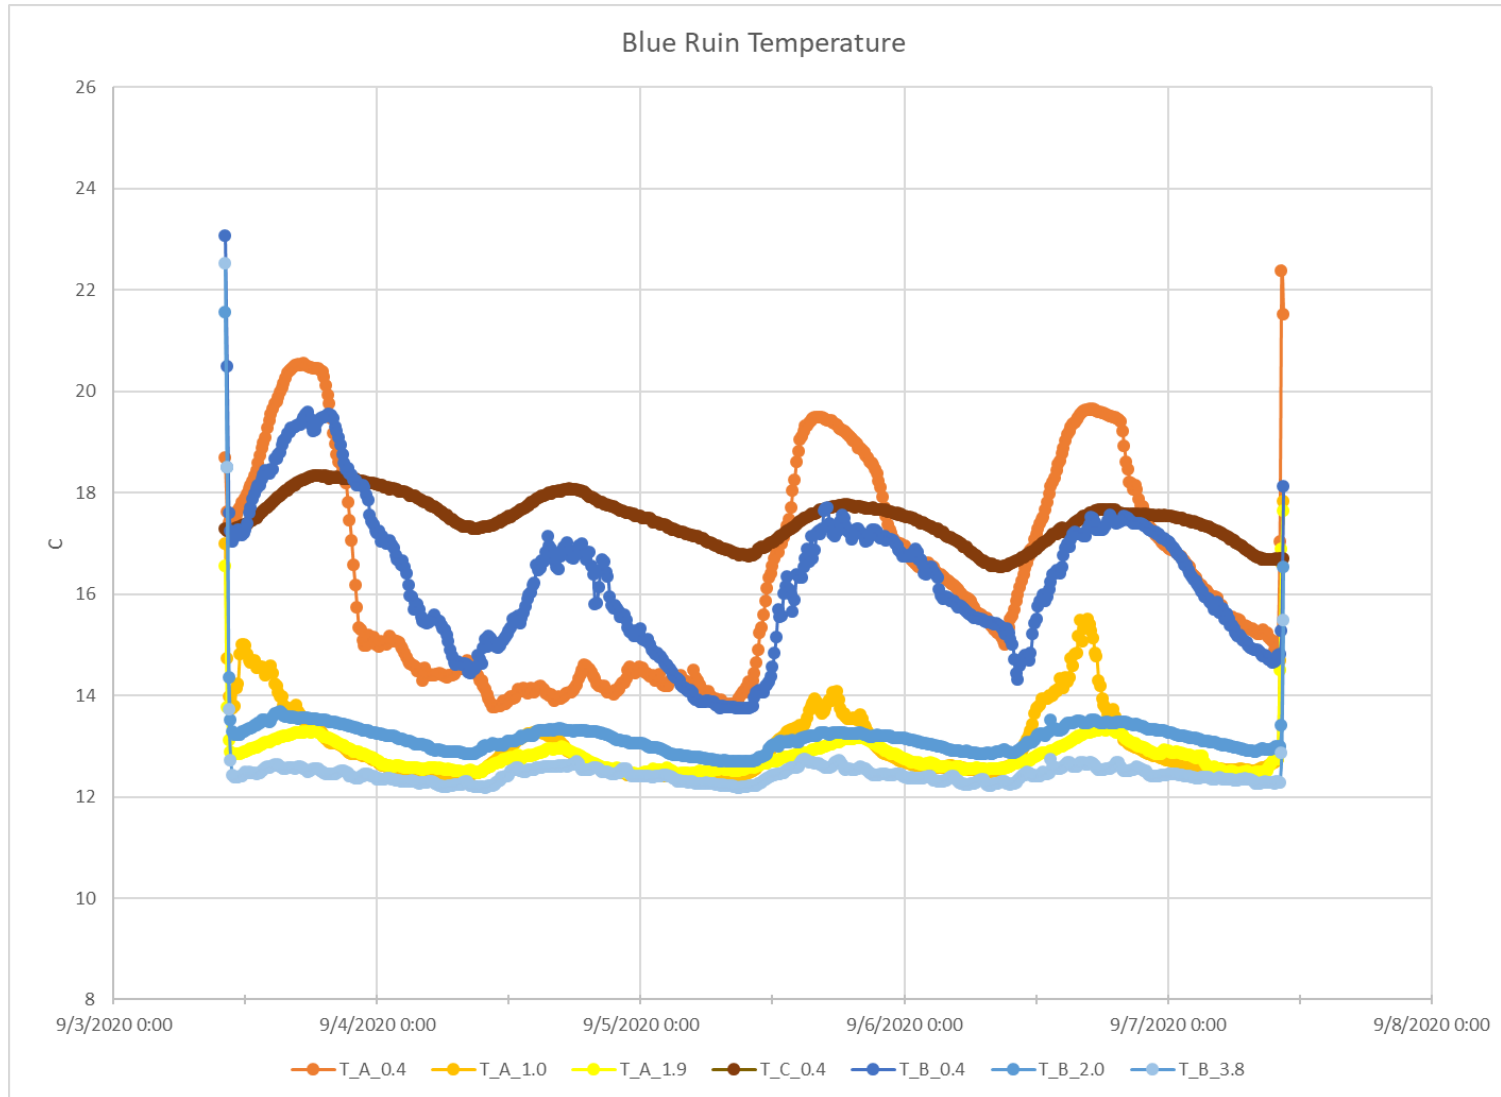

- A – upper (3 depths)
- B – lower (3 depths)
- C – River logger

Handheld sensor measurement locations 1-14 at up to 3 depths.

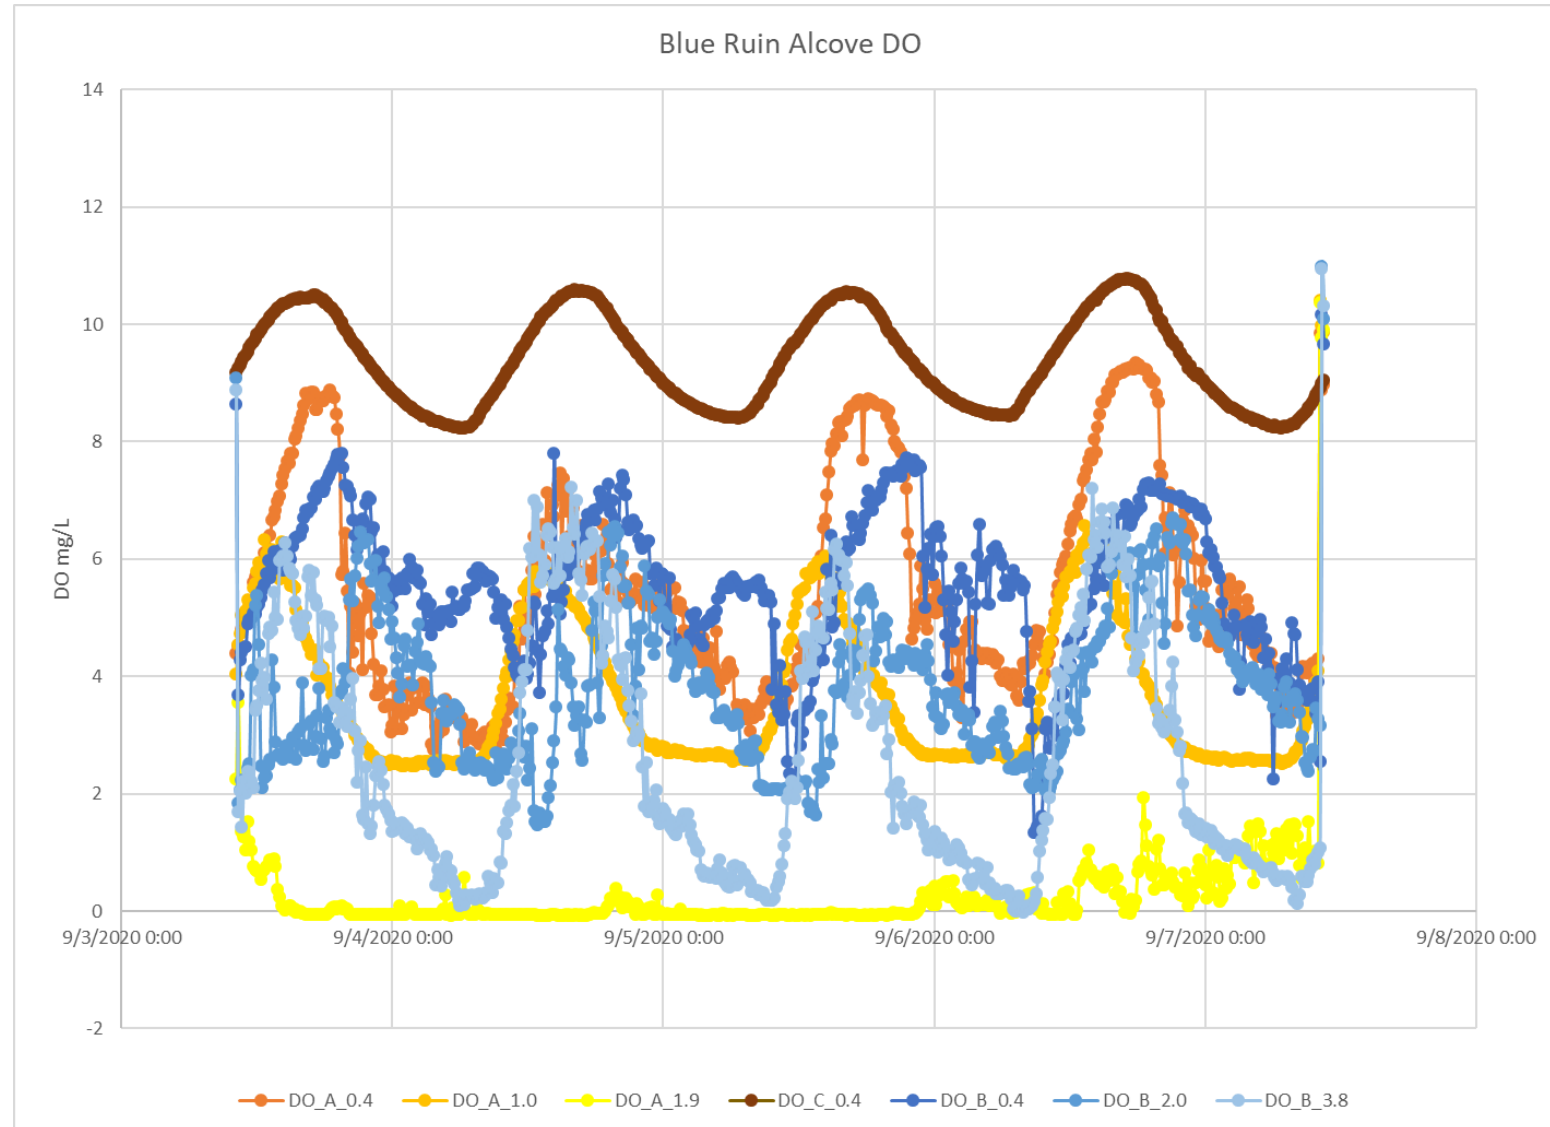

Icon colors indicate following:

- Blue: Temp <16 & DO >5 mg/l
- Yellow: Temp <16 & DO ≤ 5
- Orange: Temp ≥ 16 & DO >5
- Red: Temp ≥ 16 & DO ≤ 5

Blue Ruin alcove— Temperature: upper alcove (orange/yellow), lower alcove (blue), river (red)

Blue Ruin alcove— Oxygen: upper alcove (orange/yellow), lower alcove (blue), river (red)

Riverloop alcove– measurement locations

Logger locations:

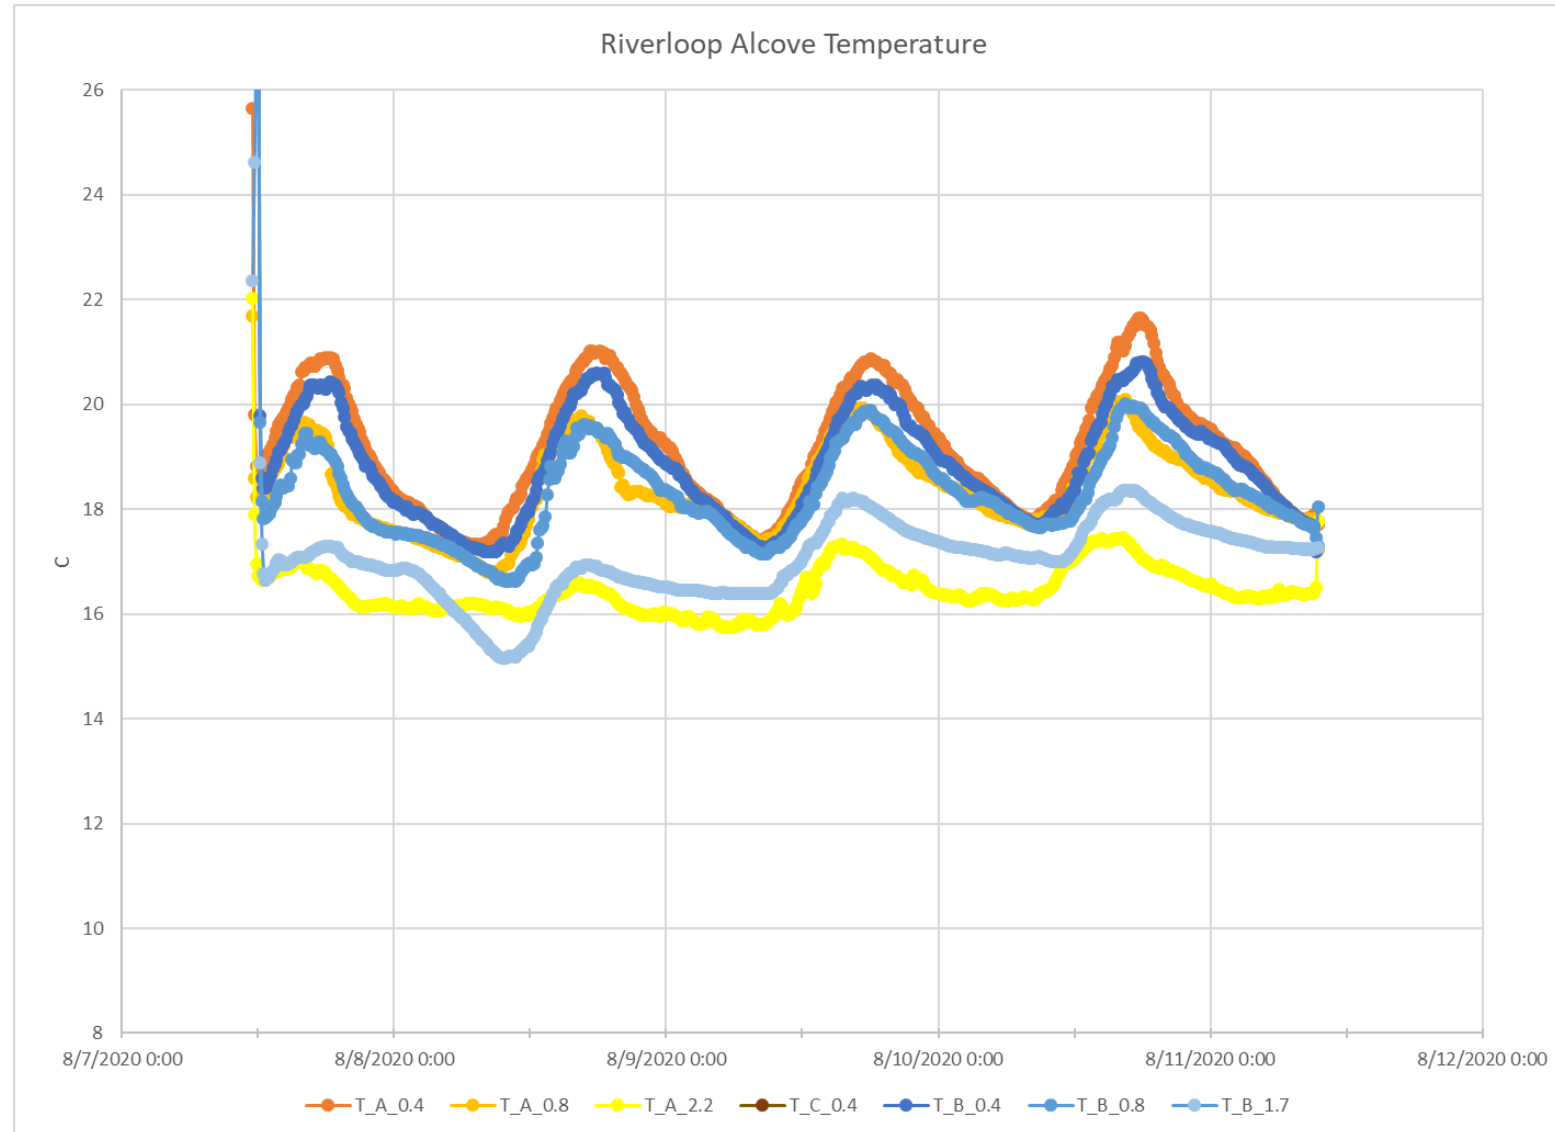

- A – upper (3 depths)
- B – lower (3 depths)
- C – River logger

Handheld sensor measurement locations 1-7 at up to 3 depths.

Icon colors indicate following:

- Blue: Temp <16 & DO >5 mg/l
- Yellow: Temp <16 & DO ≤ 5
- Orange: Temp ≥ 16 & DO >5
- Red: Temp ≥ 16 & DO ≤ 5

Riverloop alcove– Temperature: upper alcove (orange/yellow), lower alcove (blue)

River sensor was deployed but not found..suspect it was taken

Riverloop alcove— Oxygen: upper alcove (orange/yellow), lower alcove (blue), river (red)
